Community Leadership Collaborative Draft Overview

What
• A one-year pilot program that engages community residents and connects them with Medicaid Transformation Project leadership opportunities, while also providing a cohort learning space to share and strengthen leadership skills

Purpose
• Build bridges for community residents to showcase leadership skills and be involved in Medicaid Transformation Project decision-making; build capacity for the larger community to be more successful in project efforts and improve health outcomes

How we meet this purpose
• Connect participants to available leadership opportunities based on their interests, skills, and the needs of the greater community
• Provide a cohort shared learning environment for continued skill sharing, skill development, support, and community building

Audience
• Community residents who want to make a difference and share their leadership skills to transform health systems and improve public health
• Community residents with lived experience with the Medicaid system or lack of access to health insurance, including Medicaid
• Community residents with lived experience confronting systemic barriers to good health

Structure
• Pilot program for one year
• 10 participants in Clark County in Year One
• 5 participants in Skamania County in Year One
• 5 participants in Klickitat County in Year One
• Participants receive a stipend
• Monthly cohort meetings
• Individual meetings to support intentional connection to leadership opportunities
• Evaluation of the program to determine success and viability for continuation

Next Steps
• Sharing the idea, brainstorming, getting feedback (Dec-Jan 2019)
• Creating and convening a design team to build the pilot year structure (Jan-Feb 2019)
• Recruitment, application process, and selection of initial cohort (March 2019)
• Pilot Year One begins (April 2019)
